

1. Tell me about yourself?

Hello! I am a Front-end Developer. I can build web applications that are fully responsive on any device. I always write standard codes that are so clean and easily supported by all browsers. I build websites by writing a minimum line of code, and that website loads faster. I write SEO-friendly code. I have built lots of websites since 2021 using HTML 5, CSS 3, JavaScript, Bootstrap, and Tailwind. Now I am also learning MongoDB, Express, React JS.

2. Tell me about your best project?

The Nabiganj IT web application is my best project. Nabiganj IT is a single page application. It is a MERN stack project. For the project I used HTML, CSS, React JS, Express JS, MongoDB, Firebase, and Tailwind CSS. It was a full-stack application that allows users to order tools. If a user wants to buy some courses, they must first register an account on Nabiganj IT application.

3. Why should we hire you?

Honestly, For starters, I have all the skills and experience listed in the job description, and I'm confident that I can make an immediate impact on your company.

4. What is your expected salary?

As I am fresher, I am not expecting the salary. But I will go with your company norms. I want to develop my skills and work on a competitive platform. So, in this case, my expected salary is between 200\$ to 250\$.

5. Do you have any questions for us?

Yes, I have some questions to ask. First of all
What challenges have past employees faced in this job?
Secondly What is the goals the company has for the next year?
